

Dear Partners,

We would like to inform you about new filters and thermostats references in our product range.

We suggest to take a closer look on references which are dedicated for passenger cars BMW series 3, 5 and 7, the cabin air filter element LA 173/S and air filters LX 3598 and LX 3541. Additional news in the range is the spin-on oil filter OC 978 to passenger cars: Dacia, Mercedes-Benz, Nissan and Renault. Also interesting is the fuel filter KX 387D ECO dedicated for vans FORD with engine 2.2 TDCI.

In the thermostats for your attention two references for passenger cars: the 1st is thermostat insert TX 117 95D for AUDI (engine 1.8 TFSI and 2.0 TFSI) and VW (engine 2.0 TSI), the 2nd is the thermostat TM 37 103 dedicated to OPEL vehicles.

More details about engines, models and construction years You can find in online catalogue:
